- **DIPLOMA IN CIVIL ENGINEERING**
- **DIPLOMA IN COMPUTER ENGINEERING**
- **DIPLOMA IN ELECTRICAL ENGINEERING**
- **DIPLOMA IN ELECTRICAL & ELECTRONIC ENGINEERING**
- **DIPLOMA IN MECHANICAL ENGINEERING**

## FROM THE DESK OF PRINCIPAL

With great pleasure, I want to inform you about the momentous twenty years long successful academic journey of Birgunj Institute of Technology. It has been an honour for me to be associated with this institute as a founding faculty member and to witness its progress to be a leading technical education provider in both Province number 2 and in Nepal.

Acknowledging the importance of technical education, this institute was established in 2000 AD by a group of young Engineers. Today, BIT is well recognized within CTEVT and Polytechnic Community and our graduates are performing well both at their workplace and in the academia.

BIT is dedicated to providing a comprehensive technical education to equip its graduates with skills and knowledge required to solve challenges of industries of this millennia. The institute also focuses on developing skills required to succeed in different spheres of life with changing environment of the modern world. Some of the such skills are awareness about socio-cultural behavior, legal-political situation, and communication skills.

As a Principal of this institute, first of all I welcome all prospective students and guardians and want to invite you to visit the institute. I will be glad to discuss with you about BIT, its educational facilities and faculties, extra-curricular activities and education support system. I want to assure the guardians that your child will have a rewarding experience at BIT and I will try best to provide students all the learning opportunities possible. Please read BIT prospectus which provides full information about BIT, its facilities, fee structure and scholarship scheme.

Please feel free to contact me by any means given below if you want to discuss about educational opportunities at BIT.

Looking forward to hearing from you and welcoming you at BIT.

**Er. Raghib Hossain, BE(Electronics), QManagement(MSM Bangkok)**  
Founding Member

## MESSAGE FROM FOUNDING PRINCIPAL

Firstly I congratulate you on your decision to choose Birgunj Institute of Technology (BIT) for your higher education. Please accept my warm welcome at BIT- a place of learning where you are going to start a fruitful, rewarding and enriching learning experience.

Since its establishment, principle objective of BIT remains unchanged- to provide an affordable high-quality education in your own city of Birgunj. As a Founding Principal, I am extremely satisfied to witness the phenomenal growth of BIT, establishing itself as one of the leading polytechnic colleges in Nepal.

BIT offers a holistic educational learning environment through various innovative teaching approaches based on classroom lectures, tutorials and the fundamentals of Problem-Based Learning (PBL). PBL normally takes place at workshops, laboratories and at local industries where students are provided with opportunities to identify problems and come up with a solution.

During your learning journey at BIT, you will be provided with a service of well qualified and experienced academic staffs. As a BIT student, you will have access to excellent facilities such as library, computing facilities, free WiFi and opportunities to participate in extracurricular activities at various sporting events and campus tours.

By the time you graduate, you will be a confident and resourceful problem-solver and an asset to any organization. Finally I wish all the best to our prospective students and look forward to welcoming you at the BIT.

**Dr Nand Kishor Singh, MSCEE, PhD, MIEEE**  
Founding Member

## THE REASONS TO JOIN BIT

- 🔗 Offers recognized technical degrees
- 🔗 Affordable fees structure
- 🔗 Well equipped laboratories and workshops
- 🔗 Tutorial classes are arranged in small groups
- 🔗 Modern computer lab and a full- fledged library
- 🔗 Offers merit and need based scholarships
- 🔗 Excellent success rate at the final year CTEVT board examination.
- 🔗 Student's progress is regularly communicated to parents and guardians

## INTRODUCTION

Birgunj Institute of Technology (BIT) was established as a private technical institute in 2000 AD offering three years Diploma program in Electrical Engineering and Mechanical Engineering. Computer Engineering was added in the year 2002 AD, Civil Engineering and Electronics Engineering program in 2007 AD followed by Electrical and Electronics Engineering in 2019 AD.

This institute is affiliated to the Council for Technical Education and Vocational Training (CTEVT) of the Government of Nepal. The institute is located in Birgunj Metropolitan City on its own land and building.

Our graduates have already been serving in Nepal and abroad since 2003 demonstrating highest standard of technical skills and knowledge they acquired at BIT. BIT is in the process to get affiliation for conducting Bachelors in Engineering (BE) programs.

### ACADEMIC PROGRAMS

Diploma in Civil Engineering	3 years
Diploma in Computer Engineering	3 years
Diploma in Electrical Engineering	3 years
Diploma in Electrical & Electronics Engineering	3 years
Diploma in Mechanical Engineering	3 years
Bachelor of Engineering*	
Civil/Electrical/Computer/Electronics/Mechanical	*Proposed

### ADMISSION INFORMATION

- Photocopies of SEE/SLC Certificate or equivalent(2 copies)
- Photocopies of Citizenship Certificate(2 copies)
- Domicile certificate or passport for foreign students(2 copies)
- Recent passport size photo (4 copies)
- All candidates Nepalese and Foreign both must satisfy entrance requirement of CTEVT.
- Students from general stream should be SEE/SLC passed or equivalence. TSLC students should have an aggregate mark of 66.66% from IOE and 68.33% from CTEVT.

#### Distribution of Admission form

The candidates can receive the application form from BIT administration office or authorized center by paying the fee structured by CTEVT.

### SCHOLARSHIP POLICY

BIT provides a number of classified & special scholarships as per CTEVT policies. For these scholarships, students have to apply separately, followed by a CTEVT competitive exam.

BIT also offers internal scholarship schemes to meritorious students on the basis of semester exam results.

**SPECIAL SCHOLARSHIP SCHEME IS AVAILABLE FOR FEMALE CANDIDATES ENROLLED IN THE FACULTIES OF COMPUTER AND ELECTRONICS.**

*Special Scholarship scheme is available for male and female candidates enrolled in the faculty of Electrical & Electronics and Mechanical on the basis of recommendation and marks.*

### INFRASTRUCTURE

Birgunj institute of Technology is spread over 14 katha and is situated in plain land and pollution free environment with state of the art infrastructure. All the lecture halls, tutorial rooms and laboratories are well conditioned, furnished and equipped.

### LIBRARY

The library is well furnished and well equipped. It has the latest text books, journals with a study room. It provides the students with all the text books for each semester.

### SPORTS & EXTRA CURRICULAR ACTIVITIES

The college provides outdoor and indoor sporting facilities such as cricket, table tennis, chess, and badminton etc. BIT organizes annual sports competitions & quiz Contest.

## A STEP TOWARDS HIGHER TECHNICAL EDUCATION

Acknowledging the importance and demand of Higher Technical education our next step is towards graduate level engineering. To start with, we, the management committee of Birgunj Institute of Technology have taken up the mandate from various sanctioning agencies for running four year engineering degree course leading to Bachelor of Civil Engineering, Electrical & Electronics Engineering, Computer Engineering and Mechanical Engineering.

Our major objective is that our students during their stay with us or even after they pass out from this institution, should be able to face the academic as well as professional challenges, not only in their home country, but also Globally.

We endeavor that our students should become academically strong, with high class communication skills, excellent moral values, high leadership qualities and professional competence. They should also turn out to be worthy skilled hands of the country, possessing high degree of integrity, honesty and quality consciousness.

We try to nurture the young minds, help them to enrich their knowledge and provide wings to their aspirations, train them for real life experience, prepare them to face challenges in life, and encourage them to expose their hidden talents with a view to make them competent and confident to suit any work environments.

Besides imparting high quality education, we have a well established system of parents /guardians interaction, and we regularly conduct class tests. These activities keep the students on alert all the time. We have penchant for quality, which is evident from the qualifications and academic contributions of our faculty, placement records, equipments in our laboratories, library and computing facilities, teaching methodology and evaluation system, and the academic level of our students.

# CIVIL SUB-ENGINEER

## DIPLOMA IN CIVIL ENGINEERING

I am glad that you have chosen this institute to build up your career. As per recent development in this new era the technology has a very meaningful role to play in the development of the nation. This course provides the students to learn, design and maintain the urban & rural construction with specialization in Auto CAD. The faculties take keen interest in civil engineering, construction & research work in order to provide the most modern knowledge in the related field.

### Er. Sudhir Keshari

Asst. HoD, Civil Engineering Department

The students passing Diploma in Civil Engineering acquire knowledge and skill for working as sub engineers in road & building, irrigation development, surveying, interpreting drawing, drafting, estimation of construction and maintenance work as well as small project design. The diploma graduates get jobs in different fields such as Ministries for Local Development, Labour & Transport Management, Physical Planning & Works, Water Resources, Nepal Electricity Authority, Nepal Drinking Water Corporation, NCCN, Private Construction, Engineering Consultancy firm etc. They can also get job in foreign countries and technical institutions.

## SYLLABUS (CIVIL ENGINEERING)

### SEMESTER I

Communication Nepali  
Communication English  
Engineering Mathematics I  
Engineering Physics I  
Engineering Chemistry I  
Workshop Practice I  
Engineering Drawing I

### SEMESTER II

Engineering Mathematics II  
Engineering Physics II  
Engineering Chemistry II  
Workshop Practice II  
Engineering Materials  
Engineering Drawing II  
Computer Application I

### SEMESTER III

Engineering Mathematics III  
Surveying I  
Applied Mechanics  
Basic Hydraulics  
Building Construction  
Construction Drawing  
Computer Aided Drafting

### SEMESTER IV

Social Studies  
Management  
Surveying II  
Estimating and Costing I  
Mechanics of Structure  
Soil Mechanics  
Water Supply Engineering

### SEMESTER V

Surveying III  
Estimating and Costing II  
Structural Design & Drawing  
Highway Engineering I  
Sanitary Engineering  
Construction Management  
Minor Project (Survey Camp)

### SEMESTER VI

Entrepreneurship development  
Highway Engineering II  
Estimating and Costing III  
Irrigation & Drainage Engineering  
Major Project  
Elective (one of the following)  
a. Trail Bridge  
b. Hill Road  
c. Hill Irrigation Engineering  
d. Gravity flow water supply system  
e. Rural/Agriculture Road.

# COMPUTER SUB-ENGINEER

## DIPLOMA IN COMPUTER ENGINEERING

Diploma in Computer Engineering is designed to keep pace with globalization and has a vision to develop competent hands. Computer Engineering course has successfully been running in BIT since 2002. The department is equipped with sophisticated facilities and the latest software. Our department's mission is to educate our students with a balance in theory and practical, and to create technologies that benefit society. Teaching and mentoring students is a great passion for our faculty.

**Er. Sarita Jayaswal**

HoD, Computer Engineering Department

The students who have passed Diploma in Computer Engineering will be expert in hardware repair and maintenance, computer networking, graphics designing, Database Administration, Computer programming, desktop publishing etc.

The graduates in this stream get job opportunities in various fields such as Nepal Government Offices, Telecommunication Offices, Government and private sector (radio and television), Airlines operations and private computer related workshop etc. It is probable for the graduates to get job in foreign employment and technical institutions as well.

### SYLLABUS (COMPUTER ENGINEERING)

#### SEMESTER I

Communication Nepali  
Communication English  
Engineering Mathematics I  
Engineering Physics I  
Engineering Chemistry I  
Computer Fundamentals  
Engineering Drawing  
Computer Programming in C

#### SEMESTER II

Engineering Mathematics II  
Engineering Physics II  
Engineering Chemistry II  
Digital Logic  
Object Oriented Programming with C++  
Electrical Engineering  
Web Technology & Programming I

#### SEMESTER III

Web Technology & Programming II  
Engineering Mathematics III  
Data Structure & Algorithm

Database Management System  
Microprocessors  
Electronic Devices & Circuits

#### SEMESTER IV

Data Communication  
System Analysis and Design  
Visual Programming  
Computer Architecture  
Computer Repair & Maintenance  
Computer Graphics  
Statistics & Probability

#### SEMESTER V

Computer Networks  
Management Information System  
Applied Telecommunication  
Distributed Computing  
Operating System  
Cyber Security and Social Ethics  
Elective - I (any one)  
(a) Geographical Information System  
(b) Computer Simulation and Modeling  
(c) Java Programming

Minor Project

#### SEMESTER VI

Multimedia Technology  
Internet Technology  
Data Mining  
Software Engineering  
Elective - II  
(a) E-Governance  
(b) E-commerce  
(c) Embedded System  
Major Project

# ELECTRICAL SUB-ENGINEER

## DIPLOMA IN ELECTRICAL ENGINEERING

The department of Electrical Engineering having excellent infrastructure & laboratories has achieved high academic standard and good placement. The department maintains good quality education having trained and qualified faculty members. Industrial training is also provided to the students according to the requirement of their course curriculum to gain exposure and explore the practical learning.

The students frequently travel to various industries as the part of the industrial visit components of the programme offered. These are excellent opportunities for students to gain exposure to real life work environment and culture. For bright future grab the opportunity to be graduate of this steam of engineering.

### Er. Amit Yadav

Asst. HoD, Electrical Engineering Department

The students who have passed Diploma level in Electrical Engineering will be able to understand the basic principles of electricity, operate machine and electrical circuits, conduct and maintain mini/micro hydropower station, repair household appliances, make supervision of domestic and industrial electrical work as well as the supervision of power transmission distribution.

The students will get an opportunity in various possible field such as Nepal Electricity Authority, Nepal Air Corporation, Radio Transmission Development Committee, Nepal Telecom Co., Industries, private workshop etc. They will be given opportunity in foreign employment and technical institution as well.

## SYLLABUS (ELECTRICAL ENGINEERING)

### SEMESTER I

Communication Nepali  
Communication English  
Engineering Mathematics I  
Engineering Physics I  
Engineering Chemistry I  
Computer Application  
Engineering Drawing I  
Workshop Technology

### SEMESTER III

Computer Programming  
Basic Electronics  
Civil Construction and Survey  
Electrical and Electronic Engg. Material  
Electric Circuit Theory  
Principles of Management and costing  
Electrical Installation I  
Electrical Engineering Drawing I

### SEMESTER V

Electrical Installation Design, Estimating and Costing.  
Switch Gear and Protection  
Power Electronics  
Electrical Machines II  
Utilization of Electrical Energy  
Control System Components  
Electrical Repair and Maintenance I  
Project I

### SEMESTER II

Engineering Mathematics II  
Engineering Physics II  
Engineering Chemistry II  
Engineering Drawing II  
Applied Mechanics  
Safety Rules & Regulation  
Electrical Workshop  
Principles of Electrical Engineering

### SEMESTER IV

Microprocessor and Microcontroller  
Computer Aided Design  
Electronic Devices and Logic Circuits  
Electrical Installation II  
Electrical Engineering Drawing II  
Electrical Machines I  
Elec. Measurement and Measuring Instruments  
Power Stations

### SEMESTER VI

Electrical energy audit and conservation  
Project II  
Power System Operation & Maintenance  
Electrical Repair and Maintenance II  
Industrial Attachment  
Entrepreneurship Development  
Transmission and Distribution of Electrical Power  
Elective (One of the followings)  
a. Micro-Hydro  
b. Instrumentation & Transducers  
c. Electric Drives  
d. Renewable Energy Technology

# ELECTRICAL & ELECTRONICS SUB-ENGINEER

## DIPLOMA IN ELECTRICAL & ELECTRONICS ENGINEERING

On behalf of our students and faculty, it is my privilege to welcome all of you to the Department of Electrical Engineering at BIT. We take pride in our faculty, a team of highly capable and dedicated professionals, most of whom have academic and industrial experience and degrees from leading universities. We provide ample opportunities to our faculty and students, through in-house training, workshops and training outside the college campus for further growth and development in their areas of expertise.

### Er. Niraj Shrivastav

HoD, Electrical & Electronics Engineering Department

The graduates who have passed Diploma level in Electrical & Electronics Engineering will be able to understand the basic principles of electricity, operate machine and electrical circuits, conduct and maintain mini/micro hydropower station, repair household appliances, make supervision of domestic and industrial electrical work as well as electronics devices such as radio, TV, mobile as well as telecommunication equipments, designing the electronic circuit, integrated circuit fabrication etc.

## SYLLABUS (ELECTRICAL & ELECTRONICS ENGINEERING)

### SEMESTER I

Communication Nepali  
Communication English  
Engineering Mathematics I  
Engineering Physics I  
Engineering Chemistry I  
Engineering Drawing  
Workshop Practice I

### SEMESTER II

Engineering Mathematics II  
Engineering Physics II  
Engineering Chemistry II  
Computer Application  
Safety Rules and Regulations  
Workshop Practice II  
Principles of Electrical Engineering

### SEMESTER III

Computer Programming  
Basic Electronics  
Digital logic  
Electrical and Electronics Engineering  
Material  
Electric Circuit Theory

Electrical Installation  
Electrical and Electronics Engineering  
Drawing  
Elements of Engineering Economics

### SEMESTER IV

Electronics Devices and Circuits  
Computer Aided Drawing  
Microprocessors  
Basic Programmable Logic Control (PLC)  
Electrical Machines I  
Electrical Measurements and Measuring  
Instruments  
Transmission and Distribution of Electrical  
Power  
Repair and Maintenance of Consumer  
Appliances I

### SEMESTER V

Switch Gear and Protection  
Power Electronics  
Electrical Machines II

Minor Project  
Digital Electronics Circuit  
Repair and Maintenance of Consumer  
Appliances II  
Control System Components

### SEMESTER VI

ACommunication Systems  
Design, Estimating & Costing of Electrical  
& Electronics Installation  
Industry Based Major Project  
Industrial Attachment  
Entrepreneurship Development  
Computer Architecture  
Elective (One of the followings)  
a. Hydro Power  
b. Radio & Television and Broadcasting System  
c. Renewable Energy Technology  
d. Electrical Energy Management  
e) Fiber Optic Communication  
f) Wireless Communication

# MECHANICAL SUB-ENGINEER

## DIPLOMA IN MECHANICAL ENGINEERING

Mechanical Engineering is the innovative application of science & technology to the design, production and operation of mechanical devices, machinery and system. The best thing about Mechanical Engineering is challenging development and exposure quickly to a lot of responsibilities.

Mechanical Engineers excels at designing racing yachts, robots, saw mills, aero plane, industrial equipment, aircraft, manufacturing plants, medical devices etc.

**Er. Jai Prakash Biraji**

HoD, Mechanical Engineering Department

The Mechanical Engineering graduates become expert in operating and assembling various machines, making maintenance, plumbing steel fabrication, maintenance of automobiles etc.

The graduates in this stream get job opportunity in various fields such as ministerial and departmental office, corporation, industry, private workshop etc. It is possible for the graduates to get job in foreign employment and technical institutions as well.

### SYLLABUS (MECHANICAL ENGINEERING)

#### SEMESTER I

Communication Nepali  
Communication English  
Engineering Mathematics I  
Engineering Physics I  
Engineering Chemistry I  
Engineering Drawing I  
Workshop Technology I

#### SEMESTER II

Engineering Mathematics II  
Engineering Physics II  
Engineering Chemistry II  
Engineering Drawing II  
Material Science  
Workshop Technology II  
Basic Electrical Engineering

#### SEMESTER III

Basic Electronics Engineering  
Thermal Engineering I  
Manufacturing Technology I  
Machine Drawing  
Metrology  
Computer Applications  
Engineering Mechanics

#### SEMESTER IV

Computer Graphics (Auto CAD)  
Thermal Engineering II  
Manufacturing Technology II  
Machine Element & Mechanism  
Strength of Materials  
Fluid Mechanics and Machines  
Industrial Management

#### SEMESTER V

Basic Automobile Engineering  
Advanced Manufacturing Technology  
Industrial Attachment  
Maintenance Engineering  
Fundamentals of Hydraulics and Pneumatics  
Machine Design, Estimating and Costing  
Project I

#### SEMESTER VI

Basic Refrigeration and Air-Conditioning  
Renewable Energy Technology  
Industrial Hygiene and Safety  
Entrepreneurship Development  
Project II  
Elective (One of the followings)  
a. Product Design  
b. Power Generation Engineering  
c. Industrial Engineering  
d. Tools, jigs, Fixtures and Die Design

# TRAINING & PLACEMENT CELL

Birgunj Institute of Technology (BIT) is having well organized, multifunctional training and placement (T&P) Cell, headed by technocrats having more than 20 years of industrial and technical educational experience. T&P Cell facilitates the process of placement of students graduating from the institute, besides collaborating with leading organizations and institute in building of his/her career. Training and Placement Cell coordinates with various industrial establishment, consultancies and companies. The T&P cell keeps close liaison with various industrial establishment, which conduct campus drives and select the graduates from all discipline.

The training and placement cell facilitates the campus recruitment program. The office invites leading companies for campus visit. Under the hard workmanship, dedication, technical guidance and supervision of training and placement cell BIT has largely drawn the attention of domestic industries and multinational companies.

The training and placement cell assists the students in Odd and Even semester industrial training. It also coordinates technical and industrial visit for students in various department.

## STUDENT'S VIEWS

BIT is the only college running Diploma in Engineering in Birgunj. Here, education doesn't only mean books, beside this there are many leisure useful activities. I am very much satisfied with teachers, laboratories and management.

**Ranjit Kumar Kanth** DCE III-I (83.78%)  
Regd. No. DCE-02236-017

In my view I think Birgunj Institute of Technology is one of the best engineering college out side the valley under CTEVT. I would like to give credit to BIT management and faculty members.

**Nilu Kumari** DCOM III-I (85.89%)  
Regd. No. DCOM-00613-017

I am very much impressed with the care taken by management. BIT has excellent labs with excellent teachers. So, I believe BIT's educations and training improves my employability.

**Aashik Hawari** DCE III-I (83.67%)  
Regd. No. DCE-02201-017

The Technical knowledge which I acquired in BIT from our respective teachers has proven very very useful in my career. I am very thankful to BIT management for that.

**Pawan Chaudhary Jaiswal** DEX III-II (81.89%)  
Regd. No. DEE-00597-017

For quality education, excellent labs & fields works, I would like students to join BIT engineering college and go for excellence in near future.

**Bimal Ray Tharu** DEE III-I (85.11%)  
Regd. No. DEE-00581-017

Out of kathmandu vally it is one of the best engineering college where Diploma Engineers are having quality technical education to make their good future. Faculty members are very co-operate. I am thankful to faculty members and management.

**Aarju Ansari** DCOM III-I (86.95%)  
DCOM III-I (86.95%)

The infrastructures and BIT education facilities are fabulous. I would like my juniors to grab utmost out of BIT teachers.

**Krishna Chaudhary** DME III-I (89.4%)  
Regd. No. DME-00167-017

I have proud being a graduate of BIT, because it is one of the best technical college, where besides quality education, practical knowledge, is being provided to become a good Technocrats.

**Firan Kumar Raut** DME III-I (87.8%)  
Regd. No. DME-00167-017
